

11/19/70

As an effort to locate the man who was the only one to call "Bill Harris" a name which he later in the same way, was called, 11/19/70, before he returned to DC.

Subella remembers a man at U R. E. General description but not of that name who had been out in the North or South Carolina area than simply, white. Says he'd recall if he was.

He is to talk to union people.

L.O. Jones seems to be the one to see several reactions, his name. I am not recognized by the blacks, one a metal man. Never had response.

Jesse Byrd has been in the union then, is not out and on his own and not doing well. See video from Chairman.

Will keep searching.
